

Have you ever heard this in your classroom?

“Susie was so wasted! I can’t believe she did that.”

“That party was awesome. You were so drunk!”

“This Friday...your parents will be gone, right?”

“Don’t worry. I’ve got someone buying the keg.”

Unfortunately, some high school students aren’t thinking about homework or semester finals. Even those who are, will still be presented with a choice: **whether or not to drink alcohol this spring.**

No matter how small or insignificant what you heard seems, it could be the **missing piece** of information our law enforcement needs to prevent an underage drinking party.

Please help keep our kids safe and healthy during spring break, prom, and the graduation season. Report what you’ve heard and **share any information** with your school’s liaison officer or building administrator.

THANK YOU!
